4. Action Recommendations — Ready to Implement

1. Launch a New Series — Ramadan Series Replacement | NOW | TikTok

- Theme: "Back to School Series" — students returning after Eid break (emotional moment = viral potential)
- Same format as Ramadan series: daily, titled "Day X | ..." so viewers keep coming back
- Week 1: arrival atmosphere, reunions with friends, first day of classes
- Ideal duration: 30–60 seconds, add subtitles/text overlay, use Islamic/soft background music
- No need for a fancy camera — shoot with a smartphone, edit in CapCut (free)

2. Organize TikTok Playlists — Group Content for Easy Discovery | THIS WEEK | TikTok

- TikTok's Playlist feature (like Instagram Highlights) — existing playlists need organizing
- Keep existing playlists: Ramadan Teaches Me & Student Activities — ensure all videos are in the right playlist
- Create new playlist: "Facility Reviews" — add Boys' Room Review, Girls' Room Review, and other facility videos
- Create new playlist: "Enrollment Info" — add all enrollment content, FAQs, schedules, and arrival info
- Prospective students can watch all relevant content in one sitting — increases enrollment conversion

3. Switch to Reels — Stop Static Photos for Regular Content | THIS WEEK | Instagram

- Data proof: Qur'an Reel = 309 likes vs static photo = 37–87 likes (4–8x difference)
- Easiest method: re-upload top TikTok videos to Instagram Reels
- Remove TikTok watermark first: save via TikTok Studio or use SnapTik.app (free)
- Minimum target: 3 Reels per week on Instagram
- Static photos only for: important announcements, enrollment infographics, formal greetings

4. Optimize Captions & Hashtags for Prospective Students | THIS WEEK | TikTok + Instagram

- First 3 lines of caption must hook immediately — formula: [Hook/Question] + [Fact/Emotion] + [CTA]
- Always end caption with CTA: "Enrollment info → link in bio" or "Comment if you'd like to know more"
- Recommended TikTok hashtags: #islamicboardingschool #santri #pesantren #enrollment2026 #islamicschool
- Create 1 dedicated FAQ video: tuition, facilities, curriculum, daily schedule
- Pin this FAQ video on TikTok profile so prospective students see it immediately

5. Consistent Weekly Content Schedule | THIS MONTH | TikTok + Instagram

- Monday: Student life / behind-the-scenes of daily school activities
- Wednesday: Facility review (proven viral — make it a weekly routine)
- Friday: Islamic content — short lecture or du'a in VIDEO format (not photo)
- Saturday: Enrollment content or student achievements
- Write this schedule in your phone Notes or on paper and keep it visible — consistency is key

6. Activate Stories Every Day | THIS MONTH | Instagram

- Stories minimum once a day — can repost existing videos, no need for new content
- Use polling feature: "Have you applied for enrollment? Yes / Not Yet" — free, easy, boosts interaction
- Active stories = account shows up more in followers' feeds
- Every Friday: post an activity reminder or short motivational content
